Subject: FW: ABC Press Release
Attachments: 04.24.07 ABC Receives DEA Order.pdf

FYI

Just spoke to Barb from Amerisource and she said the issue has been resolved and they should be able to distribute controlled substances as of today. A formal letter should be released within the hour to verify.

Eileen,
Barb said they SHOULD be able to accept the purchase orders in transit and I do not think I will need to issue any RGA's, but I will let you know.

Thanks,

Charity Aranda

FYI

I just spoke with Clay and he said they are very optimistic that this will only be a temporary issue (a few days). We can explain this to the customers if they call wanting to set up a direct account with us. We already received one this morning. Sean, I was not sure if this is something we should just be aware of or if there is something we can do for their customers.
